

Fibre Optic comes to Canopy's Edge

The developers at Canopy's Edge have ensured that this estate is ready for future telecommunications by working hand in hand with Telstra to provide optic fibre cabling throughout the estate. In this Telstra Smart Wired Community, each home will be connected to this cable which provides your telecommunications package. Imagine Broadband Internet at unbelievable speeds, crystal clear images from your free to air television channels and beyond that, an automated household. Log on to www.smarthouse.com.au to find out about products that make your life easier.

New display homes open.

Three more builders are showcase their exciting, individual style.

Can you see yourself in a theatre room with a ceiling that curves far above your head? Are you able to picture yourself in a truly gourmet kitchen? Can you walk softly on warm timber look flooring? Do you want modern, livable homes, designed to suit real people?

These features are exhibited by the builders at Canopy's Edge. It truly is worth the effort to come to the estate to see what these exceptional builders have to offer. The houses are manned every weekend, and builders on this estate are happy to design to both your budget and to your dream. Secure your future at today's prices.
